FROM THE WORLD'S NUMBER 1 BEDDING BRAND

CORRECT COMFORT®

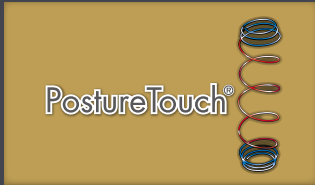

BodySense...

Conforming to your life and body.

Utilising the latest PostureTouch® technology and featuring SilverTech Fabric freshness, BodySense is the preferred solution for those looking for a quality sleep system.

Featuring a highly responsive spring unit, the coil technology provides initial gentle cradling and variable deep down support to deliver outstanding comfort, conforming to your body's needs.

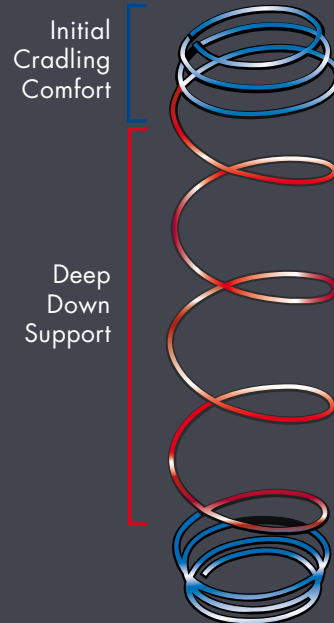

ENHANCED PRODUCT FEATURES

PostureTouch® Technology

A revolutionary pocket coil system. The advanced spring design delivers dual functions. The upper turns of the PostureTouch coil provides initial, gentle cradling comfort while the centre turns provide variable deep down body support.

Each one of the 918 coils (queen size mattress) is contained in an individual fabric pocket, and offset to maximise your sleeping experience by reducing movement in the spring unit. Each coil works individually to reduce partner disturbance supported by a working Baseplank to absorb shock and offer a high level of support.

ALSO FEATURED IN THE BODYSENSE COLLECTION

SilverTech Fabric

With a focus on creating a healthy sleep environment the BodySense range provides essential health benefits while you sleep. The natural properties of silver create a unique fabric treatment promoting permanent freshness of the sleep surface.

StayTrue® Comfort

High quality comfort layers provide superior pressure point relief. Sealy uses premium fibres and foams to create a range of comforts, so you can experience uninterrupted sleep.

MiracleEdge® Technology

Encases the coils to reduce motion transfer and delivers a consistent edge-to-edge sleep surface. It is a full perimeter edge support with shock absorbing Baseplank that adds stability and provides a firm seating edge.

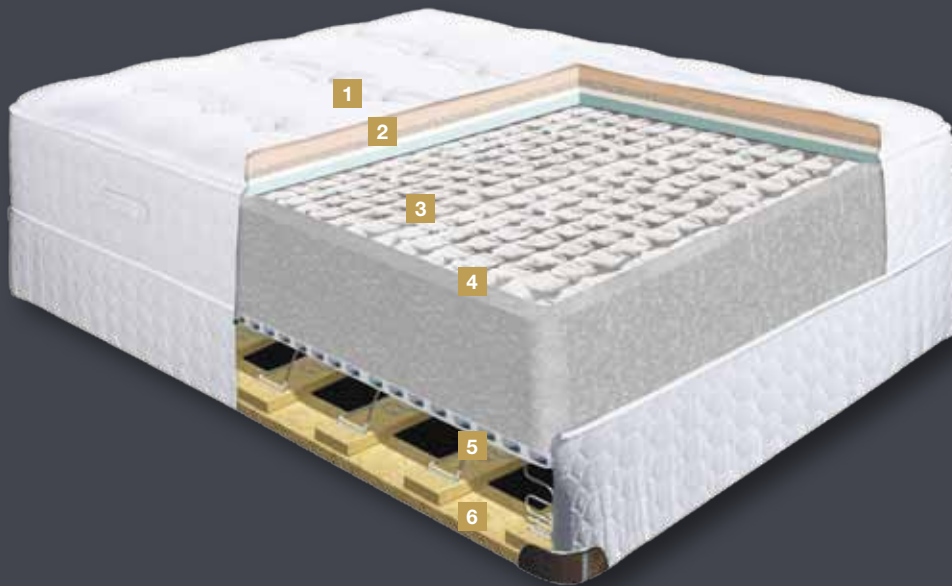

DuraTech® Foundation

A rigid platform to enhance the mattress performance. Individual modules work to reduce movement, adding stability and increasing the sleep set's durability.
